Professor B. Malmgren  
Department of Bacteriology  
Karolinska Institutet  
Stockholm 60, Sweden

Dear Professor Malmgren:

I am happy to have the opportunity to support the appointment of Dr. G. Bertani as a Professor at the Karolinska Institute. He enjoys the reputation of being a careful and imaginative research worker, and of being a friendly and cooperative colleague in academic work. He brings an intimate knowledge of the development of the field of microbial genetics. As you have already had the experience of his working with you, I am adding nothing to what you know, that he would be a valuable addition to your faculty.

Yours sincerely,

Joshua Lederberg  
Professor of Genetics
